ACTIVE MOMENTUM FUND

(An open-ended equity scheme following momentum theme)

Factsheet as on October 31, 2025

This product is suitable for investors who are seeking*:	Riskometer	Benchmark Riskometer
• Capital appreciation over long term • an actively managed thematic equity scheme that invests in stocks exhibiting momentum characteristics	 The risk of the scheme is very high risk	 The risk of the Nifty 500 Index (TRI)@@@ (Benchmark) is very high risk

*Investors should consult their financial advisers if in doubt about whether the product is suitable for them.

Fund Details

Investment Objective

The investment objective of the Scheme is to seek to generate long-term capital appreciation by investing in stocks showing strong momentum. Momentum stocks are such that exhibit relatively superior price momentum – based on the phenomenon that stocks which have performed well in the past relative to other stocks (winners) continue to perform well in the future, and stocks that have performed relatively poorly (losers) continue to perform poorly. The portfolio of stocks will be selected, weighted and rebalanced using proprietary screens. However, there is no assurance or guarantee that the investment objective of the Scheme will be achieved. The scheme does not assure or guarantee any returns.
