Tata Small Cap Fund	The investment objective of the scheme is to generate long term capital appreciation by predominantly investing in equity & equity related instruments of small cap companies.	

*Investors should consult their financial advisors if in doubt about whether the product is suitable for them.

MARKET OUTLOOK

Equity market

BSE-30 and Nifty-50 indices delivered a gain of 0.6% and 0.8% respectively. The mid-cap and small cap index outperformed the benchmark indices for the month. On the sectoral front IT, Consumer Durables, Healthcare, Real Estate and Consumer staples underperformed the benchmark index, rest all sectors outperformed during the month led by Metals and Auto.

Post the GST rate cut announcement, initially markets went up, however ended the month with small gains on account of realization that GST cut benefit will be more back ended for the economy and initially may in fact negatively impact earnings for some sectors.

Marginal Standing Facility Rate	5.75% (as on September 30, 2025)	5.75% (as on August 31, 2025)

Source: RBI, Bloomberg

Inflation

India's Wholesale Price Inflation (WPI) Index came in at 0.52% YoY during the current month as compared to -0.58% for the previous month on account of stable fuel, lower food and lower commodity prices.

CPI got a sigh of relief in Aug'25 as well, broadly led by food. The food price index remained in the deflation territory for 3rd straight month in a row. The broad comfort came from vegetables and pulses. Even rain related disruption has not impacted the supply dynamics of TOP (Tomato, Onion and Potato). Core inflation has also remained stable. Core excl. gold is benign.

India's GDP growth picked up pace in Q1FY26 to 7.8% with growth well balanced across all segments. Private final consumption expenditure grew by 7%, government final consumption expenditure grew at 7.4% while Gross fixed capital formation growth stood at 7.8% for the quarter.

Other macro developments (fiscal deficit and household savings)

India's Q4FY25 current account balance registered a surplus of US\$13.5bn (1.3% of GDP) compared to a deficit of US\$ 11.5bn (1.1% of GDP) for Q3FY25. The surplus represents preponement of goods exports to manage tariff risks from the US and better software/services exports along with stable imports.

India's fiscal deficit came much lower than forecasted at 5.6% for FY24 on account of lower revenue expenditure. The government has announced a path to reduce fiscal deficit to 4.9% for FY25 (revised lower from 5.1% earlier) and 4.4% in FY26.

FY24 net household financial savings rate stood at 5.3% of GDP (5.1% for FY23). The same ratio had moved higher during the pandemic period to 12% in FY21 compared to 7.7% in FY20.

Market Outlook

GST rate rationalization exercise announced originally by Prime Minister Modi on August 15, 2025, and later ratified by the GST council on September 3, 2025, got implemented from September 22, 2025. Rates have now been rationalized to largely two brackets, ie 5% and 18% instead of four rates earlier. The regime has been simplified, and many categories have been lowered to 5% with significant benefits for the consumer.

In the short term, ie Q2FY26 and partially Q3FY26 as well, rate reduction for a few sectors like Consumer Staples, Automotive is likely to see some disruption on account of inventory in the system. Our channel checks make us believe that in the near-term earnings are likely to be muted for some of these businesses and Q4FY26 earnings will start moving higher. We have mentioned in the past monthly commentary on Banking sector as well which is the largest profit pool in India, earnings are getting negatively impacted in the short term specially 1H FY26 on account of sharp rate cuts by the RBI leading to temporary net interest margin pressures. With deposit rate repricing happening gradually, we expect Banking sector earnings to normalise from Q4FY26 onwards. In summary, it is worth highlighting that FY26 is probably a year of consolidation for the markets on account of weaker than normal earnings. Q4FY26 and FY27 we expect much better earnings growth for the markets including the benefit of a low base effect.

We in our portfolios are focused on companies which can grow earnings at a fast pace and most importantly balance sheets/cash flow being on the positive side with less leverage.

Long-term structural drivers like demographic advantage, low household debt, limited penetration across different consumer categories, increased potential for financial savings and urbanization makes India a compelling equity story from medium to long term perspective.

We believe investors would be well advised to invest with medium to long term perspective and systematically increase exposure to Indian equity markets.

MARKET OUTLOOK

Debt market

	30/09/2025	29/08/2025	Change (bps)
10 Year Benchmark Yield (s.a)	6.57	6.57	0
10 Year AAA (PSU) (ann)	7.29	7.40	-11
5 Year AAA (PSU) (ann)	6.92	7.09	-16
3 Year AAA (PSU) (ann)	6.85	7.02	-17
1 Year AAA (PSU) (ann)	6.70	6.60	10
3 Month T Bill	5.48	5.49	-1
3 Month CD	5.93	5.78	15
6 Month CD	6.20	6.05	15
9 Month CD	6.35	6.25	10
12 Month CD	6.45	6.35	10
10 Year AAA Spread	72	83	-11
5 Year AAA Spread	72	81	-9

Debt market remained range bound in the month of September in Government securities, but the short end of the yield curve came under pressure due to tightness in liquidity. Liquidity became tight due to advance tax outflows and GST outflows. RBI second half borrowing reduced the long-dated securities supply to 30 per cent and increased the 10-year supply to 28.4 per cent. The long end of the yield curve, which was trading at 7.45 per cent, came down to 7.30 levels. State government decreased the long-dated supply which led to spreads in ten-year yields coming down from 80 basis points to 60 basis points.

Liquidity in the banking system reduced from Rs 2 Lakh crores to Rs 55000 Crores due to advance tax outflow of GST outflows of Rs 1.89 Lakh crores. Liquidity in the banking system has reduced as Government balance is around Rs 5 trillion. This should be spend in the coming months which along with 75 basis points of CRR cut which should release around Rs 2 Lakhs Crores should again bring the overnight rates to 5.25- 5.35 levels from 5.50 to 5.60 levels prevailing in the last week of September 2025.

RBI MPC meet on 29 September to 1st October 2025, the RBI Monetary Policy Committee (MPC) voted unanimously to keep key rates unchanged. The Repo Rate at 5.50%, SDF rate at 5.25% and MSF rate at 5.75% remain unchanged. The MPC also decided to keep the policy stance unchanged at neutral. The stance was retained at neutral, but two external members wanted to change the stance to accommodative. **RBI Governor stated current macro-economic conditions and outlook have opened policy space for further supporting growth**

Growth & inflation estimates

- Globally, policy makers are faced elevated policy uncertainty. Inflation has remained above targets, posing fresh challenges as they navigate the shifting growth- inflation dynamics.
- Indian Growth outlook remains resilient supporting domestic drivers, despite weak external demand.
- Indian Growth is expected to be supported by favourable monsoon, lower inflation, monetary easing and salubrious impact of recent GST reforms. However, Growth continues to be below aspirations.
- Good progress of Kharif sowing adequate reservoir levels has further brightened prospects of agriculture and rural demand. Buoyancy in services sector coupled with steady employment conditions are supportive of demand, along with rationalisation of GST.
- External demand trends are expected to remain weak due to prolonged geopolitical tensions and risk off sentiments of investors, poses downside risk to growth. GST and some structural reforms will partly offset some of the adverse effects of the external headwinds.
- Taking all these factors into account, real GDP growth for 2025-26 is projected at 6.8 per cent, with Q2 at 7 per cent, Q3 at 6.4 per cent, Q4 at 6.2 per cent. Real GDP growth for 2026-27 is projected at 6.6 per cent.
- Inflation conditions remained benign during 2025-26 so far with actual outcomes turning out to be significantly lower than projections.
- Low inflation is primarily attributed to a sharp fall in food inflation aided by improved supply prospects and measures by the government to effectively manage the supply chain.
- Core inflation remains contained with the August reading of 4.2 per cent, despite continued price pressures on precious metals. Core excluding gold and silver recorded year on year inflation of 3 per cent in August 2025.
- Healthy kharif sowing, adequate reservoir levels and comfortable buffer stocks of food grains should keep food prices benign. GST rate rationalization would lead to a reduction in prices of several items in the CPI basket.
- Overall, CPI Inflation outcome is likely to be softer primarily on account of GST rate cuts and benign food prices.
- CPI inflation for 2025-26 is now projected at 2.6 percent for the current fiscal year with Q2 at 1.8 per cent; Q3 at 1.8 per cent; and Q4 at 4.0 per cent. CPI inflation for 2026-27 is projected at 4.5 per cent.

Fixed Income Outlook post Monetary Policy

RBI has revised both CPI Inflation and GDP numbers lower in the second half of this financial year. The expected CPI inflation for 2026-2027 is 4.5 percent with CPI inflation coming down below 4 percent only in the fourth quarter of 2026-27. The higher CPI Inflation number for next fiscal year, is a statistical effect due to low base of the first 3 quarters of this financial year, CPI inflation for current financial year goes below 2 percent for September and December quarters.

For the above-mentioned reasons, RBI has stated macro-economic conditions opens policy space for supporting growth in the coming months. Global uncertainty is playing a role in RBI not cutting rates at this present juncture. RBI wants to ensure transmission of previous rate cuts in the economy before embarking on further rate cuts to support economic growth.

The analysis of macro-economic development by RBI Governor was widely on expected lines due to which the Debt market remained range bound. RBI governor at his press conference has stated will ensure policy rate transmission happens in government securities markets. Government Securities market has reflected lowest transmission of policy rates due to structural problems of demand -supply mismatch.

Liquidity conditions are expected to be tight in the coming months due to busy season. RBI is expected to do Open Market Operations from December 2025 onwards to increase liquidity in the banking system. RBI Governors' statement has boosted market sentiments as market expects action from RBI if yields go higher in the coming months.

We are running heavy positions across our funds to take advantage of higher accruals present in the Government Securities, Corporate bonds and money market space.

Overseas financial organizations specified in section 115AB	35% (corporate) 30% (non corporate)	12.5%
FPIs (other than gains under section 111A and section 112A)	30%	12.5%
Foreign companies other than ones mentioned above	35%	12.5%
Local authority	30%	12.5%
Co-operative society rates	Progressive slab or 22% ^(e) / 15% ^(f)	

Notes: Capital Gains Taxation for Mutual Funds

Note 1 – Capital gains from transfer of units of “specified mutual fund schemes” acquired on or after 1st April 2023 are treated as short term capital gains taxable at applicable slab rates as provided above irrespective of the period of holding of such mutual fund units. For this purpose, from FY 2025–26, “specified mutual fund” means (a) Mutual fund which invests more than 65 per cent of its total proceeds in debt and money market instruments; or (b) a fund which invests 65 per cent or more of its total proceeds in units of a fund referred to in above sub-clause (a).

* Rate of 12.5% to be levied on long-term capital gains exceeding Rs. 1.25 lakh provided transfer of such units is subject to Securities Transaction Tax (‘STT’).

\$ Plus applicable Surcharge and “Health and Education Cess” (as mentioned under Old and New Regime on page 1).

** For gains on transfer/redemption (without indexation benefit and foreign exchange fluctuation). For determining nature of gains (i.e. long term or short term) on mutual fund unit listed on recognized stock exchange in India, period of holding of 12 months is to be considered.

@ Surcharge at 7% on base tax is applicable where total income of domestic corporate unit holders exceeds Rs 1 crore but does not exceed 10 crores and at 12% where total income exceeds 10 crores. However, surcharge at flat rate of 10 percent to be levied on base tax for the companies opting for lower rate of tax of 22%/15%. Further, “Health and Education Cess” to be levied at the rate of 4% on aggregate of base tax and surcharge.

Short term/ long term capital gain tax (along with applicable Surcharge and Health and Education Cess) will be deducted at applicable rate at the time of redemption of units in case of NRI investors. Tax treaty benefit can be claimed for withholding tax on capital gains subject to fulfillment of stipulated conditions.

Transfer of units upon consolidation of mutual fund schemes or consolidation of plans within mutual fund schemes in accordance with SEBI (Mutual Funds) Regulations, 1996 is exempt from capital gains.

Relaxation to non-residents from deduction of tax at higher rate (except income distributed by mutual fund) in absence of PAN subject to providing specified information and documents.

Notes: Income-tax implications on income in respect of units of a Mutual Fund

* Tax is not deductible if income in respect of units of a mutual fund is below Rs. 10,000 in a financial year.

** Plus applicable Surcharge and “Health and Education Cess” (as mentioned under Old and New Regime on page 1).

*** The income distributed by mutual fund to unitholders is unlikely to fall within definition of dividend under tax treaty. Given this and language of proviso to section 196A, claiming tax treaty benefit in respect of income distributed by mutual fund to unitholders for withholding tax purpose may not be possible.

**** In the case of a resident person, if PAN has become inoperative due to PAN – Aadhaar not being linked, tax could be withheld at a higher rate of 20%.

Notes: Income Tax Rates – Old Regime

(a) In case of a resident individual of the age of 60 years or above but below 80 years, the basic exemption limit is Rs. 3,00,000.

(b) In case of a resident individual of age of 80 years or above, the basic exemption limit is Rs 5,00,000.

(c) Rate of surcharge:

- 37% – specified income* exceeds Rs. 5 crore;
- 25% – specified income* exceeds Rs. 2 crore upto Rs. 5 crore
- 15% – total income exceeds Rs. 1 crore upto Rs. 2 crore; and
- 10% – total income exceeds Rs 50 lakhs upto Rs. 1 crore.

(d) Health and Education cess @ 4% on aggregate of base tax and surcharge.

(e) Resident individuals having total income upto Rs. 5,00,000 can avail rebate of 12,500 or actual tax liability whichever is lower.

Notes: Income Tax Rates – New Regime

a) For adopting New Regime, most of the deductions/exemptions such as section 80C, 80D, etc. are to be foregone. However, standard deduction of Rs. 75,000 against salary income is allowed. The aforesaid regime is default unless opted out.

b) Resident individuals having total income not exceeding Rs. 12,00,000 can avail rebate of 60,000 or actual tax liability whichever is lower. As per memorandum to Finance Bill, 2025, rebate should not be available on tax on income chargeable at special rates such as capital gains.

c) Rate of surcharge:

- 25% – specified income* exceeds Rs. 2 crore
- 15% – total income exceeds Rs. 1 crore upto Rs. 2 crore; and
- 10% where total income exceeds Rs 50 lakhs upto Rs. 1 crore.

In case of AOP, consisting of only companies as its members, the rate of surcharge not to exceed 15%.

*Specified income – Total income excluding income by way of dividend on shares and short term capital gains in case of listed equity shares, equity oriented mutual fund units, units of business trust and long-term capital gains.

Notes: Capital Gains

* Long-term capital gains exceeding Rs. 1.25 lakh will be taxable at 12.5%** (without indexation benefit and foreign exchange fluctuation)

** For determining nature of gains (i.e. long term or short term) on mutual fund unit listed on recognized stock exchange in India, period of holding of 12 months is to be considered.

(a) These rates will further increase by applicable surcharge & health and education cess.

(b) If total turnover or gross receipts in the financial year 2023–24 does not exceed Rs. 400 crores.

(c) This lower rate is optional and subject to fulfillment of certain conditions as provided in section 115BAA.

(d) This lower rate is optional for companies engaged in manufacturing business (set-up & registered on or after 1 October 2019) subject to fulfillment of certain conditions as provided in section 115BAB.

(e) Co-operative societies have the option to be taxed at progressive slab rates or 22% subject to fulfillment of certain conditions as provided in section 115BAD.

(f) This lower rate is optional for co-operative societies engaged in manufacturing or production business (set-up & registered on or after 1 April 2023) subject to fulfillment of certain conditions as provided in section 115BAE.

Disclaimers

NAV Movement

As on 30th September 2025

INVESTMENT STYLE

An equity linked tax savings scheme (ELSS) that aims to provide medium to long term capital gains along with income tax benefit under Section 80C of the Income Tax Act.

INVESTMENT OBJECTIVE

To provide medium to long term capital gains along with income tax relief to its Unitholders, while at all times emphasising the importance of capital appreciation. However, there is no assurance or guarantee that the investment objective of the Scheme will be achieved. The scheme does not assure or guarantee any returns.

Tata Arbitrage Fund

(An open ended scheme investing in arbitrage opportunities)

TATA
mutual fund

As on 30th September 2025

INVESTMENT STYLE

The scheme invests in equity and equity related instruments that tries to take advantage of the difference in prices of a security in the cash segment and derivatives segment by turning market volatility to its advantage.

INVESTMENT OBJECTIVE

The investment objective of the Scheme is to seek to generate reasonable returns by investing predominantly in arbitrage opportunities in the cash and derivatives segments of the equity markets and by investing balance in debt and money market instruments. There is no assurance that the objective of the Scheme will be realised and the Scheme does not assure or guarantee any returns.

(Inception date :14-Oct-1995) (First Installment date : 01-Feb-1996)

Past performance may or may not be sustained in the future. Returns greater than 1 year period are compounded annualized. Income Distribution cum capital withdrawals are assumed to be reinvested and bonus is adjusted. Load is not taken in to consideration. For SIP returns, monthly investment of equal amounts invested on the 1st day of every month has been considered. For scheme performance refer pages 85 - 116.

*B: Benchmark; AB: Additional Benchmark; For Scheme Risk-O-Meter and Scheme Benchmark Risk-O-Meter please refer page number 117 of Factsheet.

DISCLAIMERS

- 1) Scheme returns in terms of CAGR are provided for past 1 year, 3 years, 5 years and since inception.
 - 2) Point-to-point returns on a standard investment of Rs. 10,000/- are in addition to CAGR for the schemes.
 - 3) Different plans shall have a different expense structure. The performance details provided herein are of regular plan growth option except for Tata ELSS Fund , Tata Mid Cap Fund & TATA Equity Savings Fund where performance details given is for regular plan IDCW option.
 - 4) NA stands for schemes in existence for more than 1 year but less than 3 years or 5 years, or instances where benchmark data for corresponding period not available.
 - 5) Period for which schemes performance has been provided is computed basis last day of the month - ended preceding the date of advertisement.
 - 6) Past performance may or may not be sustained in future. For computation of since inception returns the allotment NAV has been taken as Rs. 10.00 (Except for Tata Liquid Fund, Tata Treasury Advantage Fund, Tata Corporate Bond Fund & Tata Money Market Fund where NAV is taken as Rs. 1,000). *All payouts during the period have been reinvested in the units of the scheme at the then prevailing NAV. Load is not considered for computation of returns. While calculating returns IDCW distribution tax is excluded. Schemes in existence for less than 1 year, performance details for the same are not provided.
 - 7) For Benchmark Indices Calculations , Total Return Index(TRI) has been used. Where ever TRI not available Composite CAGR has been disclosed .Please refer Disclaimer sheet for composite CAGR disclosure
 - 8) **The Scheme Returns are inclusive of the impact of Segregation of portfolio in the respective schemes.
 - 9) Scheme in existence for more than six months but less than one year, simple annualized growth rate of the scheme for the past 6 months from the last day of month-end is provided.
 - 10) In case of Overnight funds, Liquid funds and Money Market funds, the performance by way of simple annualisation of yields for 7 days, 15 days and 30 days is included.
 - 11) a) Offshore Funds performance may differ from performance of other domestic funds managed by the Fund Manager. The Offshore Fund strategies are independent of the Domestic Funds managed by the same Fund Manager
b) The difference in returns of domestic Funds and the Offshore Funds can be attributed to several factors including impact of Currency exchange rate fluctuations, Fund flows and timing of portfolio investments. Foreign Portfolio Investment Schemes are also subject to Company and Sector level limits imposed by RBI & SEBI which can be different from domestic funds leading to difference in portfolio of similar strategy in domestic fund and FPI Funds.
 - 12) Please refer the Addendums which are available on our web site for changes in Schemes Benchmarks which are effective 1st December 2021
- NA - data are not available for the period

Scheme Name	Index Name	Since Inception
Tata Large & Mid Cap Fund - Reg - Growth	BSE Sensex TRI	As TRI data is not available since Since Inception of the scheme, benchmark performance is calculated using composite CAGR of BSE Sensex PRI values from date 25-Feb-1993 to date 19-Aug-1996 and TRI values since date 19-Aug-1996
Tata Aggressive Hybrid Fund - Reg - Growth	BSE Sensex TRI	As TRI data is not available since Since Inception of the scheme, benchmark performance is calculated using composite CAGR of BSE Sensex PRI values from date 06-Oct-1995 to date 19-Aug-1996 and TRI values since date 19-Aug-1996
Tata Ethical Fund - Reg - Growth	Nifty 50 TRI	As TRI data is not available since Since Inception of the scheme, benchmark performance is calculated using composite CAGR of Nifty 50 PRI values from date 24-May-1996 to date 30-Jun-1999 and TRI values since date 30-Jun-1999
Tata Mid Cap Fund - Reg - IDCW	Nifty 50 TRI	As TRI data is not available since Since Inception of the scheme, benchmark performance is calculated using composite CAGR of Nifty 50 PRI values from date 01-Jul-1994 to date 30-Jun-1999 and TRI values since date 30-Jun-1999

Past performance may or may not be sustained in future.

- After payment of IDCW the NAV will fall to the extent of IDCW payout and statutory levy, if any. (Unit face value – ₹ 10/-).
- Pursuant to allotment of bonus units, the NAV of the scheme would fall in proportion to the bonus units allotted & as a result the total value of units held by investor would remain the same.

- The Std. Dev., Sharpe Ratio, Jensen's Alpha, Treynor, Portfolio Beta & R-squared are based on one month return calculated using last 3 years data.
- Price/Earning Ratio, Price/Book Value Ratio, are based on the historical earnings and accounting numbers, and have been computed only for the invested portion of the portfolio.
- Portfolio turnover has been computed as the ratio of the lower value of average purchase and average sales to the average net assets in the past one year (For schemes that have not completed one year, since inception is considered)
- Cash & Cash Equivalents includes CBLO, REPO, Fixed Deposits and Cash & Bank Balance.

\$-ICRA's mutual fund rating methodology is based on evaluating the inherent credit quality of the fund's portfolio. As a measure of the credit quality of a debt fund's assets. ICRA uses the concept of 'credit scores'. These scores are based on ICRA's estimates of credit risk associated with each exposure of the portfolio taking into account its maturity. To quantify the credit risk scores, ICRA uses its database of historical default rates for various rating categories for various maturity buckets. The credit risk ratings incorporate ICRA's assessment of a debt fund's published investment objectives and policies, its management characteristics, and the creditworthiness of its investment portfolio. ICRA reviews relevant fund information on an ongoing basis to support its published rating opinions. If the portfolio credit score meets the benchmark of the assigned rating during the review, the rating is retained. In an event that the benchmark credit score is breached, ICRA gives a month's time to the debt fund manager to bring the portfolio credit score within the benchmark credit score. If the debt fund manager is able to reduce the portfolio credit score within the benchmark credit score, the rating is retained. If the portfolio still continues to breach the benchmark credit score, the rating is revised to reflect the change in credit quality.

Tata Children's Fund

Bonus History	
Bonus Units in March' 1999	01:03
Bonus Units in March' 2000	01:02
Bonus Units in Nov' 2003	01:04
Bonus Units in Nov' 2007	01:02
Bonus Units in Nov' 2010	01:03
Bonus Units in Nov' 2011	01:05

Past performance may or may not be sustained in future.

• After payment of IDCW the NAV will fall to the extent of IDCW payout and statutory levy, if any. (Unit face value – ₹ 10/-).

• Pursuant to allotment of bonus units, the NAV of the scheme would fall in proportion to the bonus units allotted & as a result the total value of units held by investor would remain the same.

Annexure for All Potential Risk Class

As per SEBI Circular dated, June 07, 2021; the potential risk class (PRC) matrix based on interest rate risk and credit risk, is mentioned below :

SR No.	Scheme Name	Potential Risk Class																					
1	Tata Overnight Fund	<table><tr><th colspan="4">Potential Risk Class</th></tr><tr><td>Credit Risk →</td><td rowspan="2">Relatively Low (Class A)</td><td rowspan="2">Moderate (Class B)</td><td rowspan="2">Relatively High (Class C)</td></tr><tr><td>Interest Rate Risk ↓</td></tr><tr><td>Relatively Low (Class I)</td><td>A-I</td><td></td><td></td></tr><tr><td>Moderate (Class II)</td><td></td><td></td><td></td></tr><tr><td>Relatively High (Class III)</td><td></td><td></td><td></td></tr></table>	Potential Risk Class				Credit Risk →	Relatively Low (Class A)	Moderate (Class B)	Relatively High (Class C)	Interest Rate Risk ↓	Relatively Low (Class I)	A-I			Moderate (Class II)				Relatively High (Class III)

HOW TO READ A FACT SHEET

SCHEDULE 3

Fund Manager: An employee of the asset management company such as a mutual fund or life insurer, who manages investments of the scheme. He is usually part of a larger team of fund managers and research analysts.

Application Amount for Fresh Subscription: This is the minimum investment amount for a new investor in a mutual fund scheme.

Minimum Additional Amount: This is the minimum investment amount for an existing investor in a mutual fund scheme.

Yield to Maturity: The Yield to Maturity or the YTM is the rate of return anticipated on a bond if held until maturity. YTM is expressed as an annual rate. The YTM factors in the bond's current market price, par value, coupon interest rate and time to maturity.

SIP: SIP or systematic investment plan works on the principle of making periodic investments of a fixed sum. It works similar to a recurring bank deposit. For instance, an investor may opt for an SIP that invests Rs 500 every 15th of the month in an equity fund for a period of three years.

NAV: The NAV or the net asset value is the total asset value per unit of the mutual fund after deducting all related and permissible expenses. The NAV is calculated at the end of every business day. It is the value at which the investor enters or exits the mutual fund.

Benchmark: A group of securities, usually a market index, whose performance is used as a standard or benchmark to measure investment performance of mutual funds, among other investments. Some typical benchmarks include the Nifty, Sensex, BSE200, BSE500, 10-Year Gsec.

Entry Load: A mutual fund may have a sales charge or load at the time of entry and/or exit to compensate the distributor/agent.

Entry load is charged at the time an investor purchases the units of a mutual fund. The entry load is added to the prevailing NAV at the time of investment. For instance, if the NAV is Rs. 100 and the entry load is 1%, the investor will enter the fund at Rs 101.

Exit Load: Exit load is charged at the time an investor redeems the units of a mutual fund. The exit load is reduced from the prevailing NAV at the time of redemption. The investor will receive redemption proceeds at net value of NAV less Exit Load. For instance, if the NAV is Rs 100 and the exit load is 1%, the investor will receive Rs 99.

Modified Duration: Modified duration is the price sensitivity and the percentage change in price for a unit change in yield.

Standard Deviation: Standard deviation is a statistical measure of the range of an investment's performance. When a mutual fund has a high standard deviation, it means its range of performance is wide, implying greater volatility.

Sharpe Ratio: The Sharpe Ratio, named after its founder, the Nobel Laureate William Sharpe, is a measure of risk-adjusted returns. It is calculated using standard deviation and excess return to determine reward per unit of risk.

Beta: Beta is a measure of an investment's volatility vis-à-vis the market. Beta of less than 1 means that the security will be less volatile than the market. A beta of greater than 1 implies that the security's price will be more volatile than the market.

AUM: AUM or assets under management refers to the recent / updated cumulative market value of investments managed by a mutual fund or any investment firm.

Holdings: The holdings or the portfolio is a mutual fund's latest or updated reported statement of investments/securities. These are usually displayed in terms of percentage to net assets or the rupee value or both. The objective is to give investors an idea of where their money is being invested by the fund manager.

Nature of Scheme: The investment objective and underlying investments determine the nature of the mutual fund scheme. For instance, a mutual fund that aims at generating capital appreciation by investing in stock markets is an equity fund or growth fund. Likewise, a mutual fund that aims at capital preservation by investing in debt markets is a debt fund or income fund. Each of these categories may have sub-categories.

Rating Profile: Mutual funds invest in securities after evaluating their creditworthiness as disclosed by the ratings. A depiction of the mutual fund in various investments based on their ratings becomes the rating profile of the fund. Typically, this is a feature of debt funds.

R-Squared: R-squared measures the relationship between a portfolio and its benchmark. It is simply a measure of the correlation of the portfolio's returns to the benchmark's returns.

Treynor Ratio: Treynor Ratio is a measurement of efficiency utilizing the relationship between annualized risk-adjusted return and risk. Unlike Sharpe Ratio, Treynor Ratio utilizes "market" risk (beta) instead of total risk (standard deviation).

Jensen Alpha: A measure of the difference between a fund's actual returns and its expected performance, given its level of risk as measured by beta. Jensen's Alpha is equivalent to the alpha derived from regressing the same or portfolio's returns in excess of the risk free rate against the market return in excess of the risk free rate.
