Market sentiment was positive in September 2025, post the GST rate cut announcement, optimism around India-US trade talks and the US Fed rate cut. However, the market witnessed slight correction and gave up some gains later during the month post Trump administration's decision to impose a one-time fee of US\$100,000 on new H-1B visa petitions and a 100% tariff on branded drug imports.

On domestic front, the Indian monsoon season ended with 8% above normal rainfall. The GST Council announced a rationalization in GST rates, resulting in most items of mass consumption at lower GST rates of 5% and 18%, while luxury and sin goods are taxed at 40%, effective from September 22, 2025. Early consumption sector trends indicate positive effect due to GST rate cuts. Fitch Ratings has revised India's GDP growth outlook for FY2026 upward to 6.9% from 6.5% earlier. Separately, August 2025 Consumer Price Index (CPI) inflation inched up to 2.1% from 1.6% in July 2025, Wholesale Price Index (WPI) inflation rose to 0.52% in August 2025 from (-)0.58% in July 2025 and Index of Industrial Production (IIP) growth in August 2025 eased marginally to 4% from 4.3% in July 2025.

The Fed Federal Open Market Committee (FOMC) reduced the Federal Fund rate by 25 bps to 4% - 4.25%, also the US imposed a US\$100,000 fee on new H-1B visa petitions, and the US President announced a 100% tariff on branded drug imports which swayed investor sentiments.

Mid-cap (+1.4%) and small-cap (+1.9%) indices outperformed Nifty 50 (+0.8%). Sectoral indices ended mixed. Metals, Auto and oil & gas indices were up by ~10%, ~6% and ~5%, whereas Consumer durables, IT and FMCG indices declined by ~5%, ~3% and ~2% respectively.

FPIs continued to be sellers, offloading US\$2 bn (until September 29, 2025) of Indian equities in the secondary market, whereas DIIs bought US\$7.4 bn (until September 30, 2025). Gold continued to rally during the month and was up by +11.9% thanks to global uncertainty whereas Brent Oil was down by -1.6%.

Outlook

Nifty 50 Index currently is trading in the 'Fair zone' of valuations based on our Fair Value Spectrum. Within the market capitalization categories, post correction seen in mid caps and small caps over past 12 months, we believe that risk-reward is now neutral among the market cap categories. Indian economy and markets remain attractive from global point of view. There is extreme uncertainty in the near-to-medium term due to global tariff war & outcome of US-India trade deal, geo-political tensions and continued volatility in interest rates. However, the fair value growth of Nifty is expected to be healthy over the longer run. The catalyst for this growth going forward would be (a) cyclical uptick in the economy which may lead to improved capacity utilization, and (b) consequent earnings growth from increased asset utilization, getting a boost from operating leverage. Key risks to fair value growth are (a) sustained high-levels of interest rates and (b) any unknown consequences from major global conflicts, tariff wars.

ACTIVE MOMENTUM FUND

(An open-ended equity scheme following momentum theme)

Factsheet as on September 30, 2025

This product is suitable for investors who are seeking*:

- Capital appreciation over long term
- an actively managed thematic equity scheme that invests in stocks exhibiting momentum characteristics

Riskometer

The risk of the scheme is very high risk

Benchmark Riskometer

The risk of the Nifty 500 Index (TRI) (Benchmark) is very high risk

*Investors should consult their financial advisers if in doubt about whether the product is suitable for them.

Fund Details

Investment Objective

The investment objective of the Scheme is to seek to generate long-term capital appreciation by investing in stocks showing strong momentum. Momentum stocks are such that exhibit relatively superior price momentum – based on the phenomenon that stocks which have performed well in the past relative to other stocks (winners) continue to perform well in the future, and stocks that have performed relatively poorly (losers) continue to perform poorly. The portfolio of stocks will be selected, weighted and rebalanced using proprietary screens. However, there is no assurance or guarantee that the investment objective of the Scheme will be achieved. The scheme does not assure or guarantee any returns.

Past performance may or may not be sustained in the future. Inception date is October 2, 2019. The performance is not comparable with the performance of the scheme(s) of Union Mutual Fund due to differing investment objective/s and fundamental differences in asset allocation, investment strategy and the regulatory environment. The said disclosure is pursuant to Clause 17.2 of SEBI Master Circular for Mutual Funds dated June 27, 2024 pertaining to Regulation 24(b) of SEBI (Mutual Funds) Regulations, 1996. FPI – Foreign Portfolio Investor.

For calculation of Permitted Category FPI Portfolio, NAV is converted into INR using currency conversion rate i.e. USD INR rate. (Source: Bloomberg, closing prices)

The performance of Permitted Category FPI Portfolio is benchmarked to the Total Return variant of the Index.

Benchmark return is based on INR value (Source: NSE)

For risk factors and statutory details please see overleaf.

• Mr. Sanjay Bambalkar co-manages 10 schemes for Union Mutual Fund. • Mr. Parijat Agrawal co-manages 9 schemes for Union Mutual Fund. • Mr. Devesh Thacker co-manages 7 schemes for Union Mutual Fund. • Mr. Anindya Sarkar co-manages 7 schemes for Union Mutual Fund. • Mr. Vinod Malviya co-manages 10 schemes for Union Mutual Fund. • Mr. Gaurav Chopra co-manages 9 schemes for Union Mutual Fund. • Mr. Vishal Thakker co-manages 3 schemes for Union Mutual Fund. • Mr. Tarun Singh co-manages 1 scheme for Union Mutual Fund. • Mr. Shrenuj Parekh co-manages 3 schemes for Union Mutual Fund. • Mr. Harshad Patwardhan co-manages 2 schemes for Union Mutual Fund. • Mr. Pratik Dharmshi co-manages 8 schemes for Union Mutual Fund. • Mr. Pratik Vajani co-manages 1 scheme for Union Mutual Fund.

Note: The AMC has commenced the activity of providing Management and Advisory Services to such categories of Foreign Portfolio Investors as specified by SEBI through Fund Manager managing the schemes of Union Mutual Fund (Currently Mr. Sanjay Bambalkar & Mr. Pratik Dharmshi). Refer notice cum addendum dated October 4, 2019 available on the AMC's website. The performance disclosure for this activity is subject to the requirements as prescribed in SEBI (Mutual Funds) Regulations, 1996 and circulars thereunder, and has been provided herein above.

For further notes, refer page no. 48.

Name and type of the Scheme	This product is suitable for investors who are seeking*:	Riskometer	Benchmark Riskometer
Union Fixed Maturity Plan (FMP) - Series 13 (1114 Days) (A Close-ended Debt Scheme. A relatively high interest rate risk and moderate credit risk.)	- Regular income over the tenure of the Scheme - Investment in Debt and Money Market Instruments.	The risk of the scheme is low risk	The risk of the CRISIL Medium Duration Debt A-III Index* (Benchmark) is moderate risk

*Investors should consult their financial advisers if in doubt about whether the product is suitable for them.

Note: The Scheme and Benchmark riskometers are evaluated on a monthly basis and the current riskometers are based on the evaluation of the portfolios for the month ended September 30, 2025.

Potential Risk Class Matrix ("PRC Matrix") of Union Fixed Maturity Plan (FMP) - Series 13 (1114 Days)			
Credit Risk of Scheme →	Relatively Low (Class A)	Moderate (Class B)	Relatively High (Class C)
Interest Rate Risk of the Scheme ↓			
Relatively Low (Class I)			
Moderate (Class II)			
Relatively High (Class III)		B-III	

SIP
IS LIKE BREATHING

Keep at it.

Systematic Investment Plan (SIP) is a facility to invest fixed amounts in a scheme at regular intervals by submitting a one-time application form.

Mutual Fund investments are subject to market risks, read all scheme related documents carefully.

@In case, the start date or the end date of the concerned period is a non-business day, the NAV of the previous business day is considered for computation of returns.

\$\$\$\$Monthly SIP amount is assumed to be ₹ 10,000. SIP date is assumed as the last working day of the month.

Past performance may or may not be sustained in future and should not be used as a basis for comparison with other investments.

Returns shown above are for Growth Options / Regular Plan - Growth Options. Different Plans have a different expense structure.

Returns for more than 1 year period are Compounded Annual Growth Rate (CAGR).

For SIP CAGR Returns (%) are computed after accounting for the cash flow by using the XIRR method (investment internal rate of return)

Performance of the IDCW Option for the investor would be net of Statutory Levy, if any, applicable.

The Direct Plan has a lower expense ratio as compared to the Regular/ Other than Direct Plan to the extent of distribution expenses, commission, etc and no commission or distribution expenses for distribution of Units or distribution expenses are paid / charged under the Direct Plan.

Investors may please note that they will be bearing the recurring expenses of the fund of fund scheme in addition to the expenses of the underlying schemes in which the fund of fund scheme makes investment.

\$Standard benchmark prescribed as per the applicable circular by SEBI.

~ Annualised Returns

The performance of the Schemes have been benchmarked to the Total Return variant of the Index (TRI).

For the schemes in existence for less than 6 months, the past performance details have not been provided.

SIP Performance of Equity, Hybrid and Solution Oriented Schemes which have completed one year SIP period have been given above.

^ Based on standard investment of ₹ 10,000 made in the beginning of the relevant period.

For details of performance of other Schemes managed by the Fund Manager refer Page no - 42 - 45.

Note: The Scheme and Benchmark riskometers are evaluated on a monthly basis and the current riskometers are based on the evaluation of the portfolios for the month ended September 30, 2025.

PLANS (ACROSS A COMMON PORTFOLIO):

Union Flexi Cap Fund/ Union ELSS Tax Saver Fund/ Union Dynamic Bond Fund/ Union Liquid Fund:

• Direct Plan for investors who purchase units directly with Union Mutual Fund. • Investors who purchase units through a Distributor will be allotted units under the Scheme but not under the Direct Plan.

All Other Schemes⁵:

• Direct Plan for investors who purchase units directly with Union Mutual Fund. • Regular Plan for investors who purchase units through a Distributor.

⁵A separate plan viz. 'Unclaimed Amounts Plan' has been introduced under Union Overnight Fund for the limited purpose of deployment of unclaimed redemption and unclaimed dividend amount only. Hence, units under the said plan shall not be available for subscription by investors. Please refer addendum dated December 22, 2021, available on our website for more details. The options available under this Plan are Redemption: Upto 3 years, Redemption: Beyond 3 years, IDCW: Upto 3 years and IDCW: Beyond 3 years.

OPTIONS (UNDER EACH OF THE PLANS):

Union ELSS Tax Saver Fund/ Union Retirement Fund/ Union Children's Fund: • Growth • Payout of IDCW Option

All Other Schemes: • Growth • Reinvestment of IDCW Option, Payout of IDCW Option and Transfer of IDCW Plan.

DEFAULT OPTION/ FACILITY:

Union ELSS Tax Saver Fund/ Union Retirement Fund/ Union Children's Fund: Option: Growth

Union Liquid Fund/ Union Overnight Fund/ Union Money Market Fund: Option: Growth, Facility under IDCW Option: Reinvestment of IDCW with monthly Frequency

All Other Schemes: Option: Growth, Facility under IDCW Option: Reinvestment of IDCW

NOTES:

1. Default SIP day/date would be Wednesday for weekly frequency and 1st and 15th of the month for Fortnightly Frequency and 8th of every month for Monthly Frequency.
2. If the date selected for STP, SWP or SIP falls on a non-business day, then the transaction shall be effected on the next business day of the scheme.
3. Units marked under Lien, Pledge or Lock-in Period shall not be eligible for Redemption, Switch Out, STP & SWP.
4. The minimum application amount given above shall not be applicable to the mandatory investments made in the Scheme pursuant to the provisions of Clause 6.10 of SEBI Master Circular for Mutual Funds dated June 27, 2024 as amended from time to time. Please refer the respective Scheme Documents for complete details in this regards.

Fund Manager

An employee of the asset management company such as a mutual fund or life insurer, who manages investments of the scheme. He is usually part of a larger team of fund managers and research analysts.

Application Amount for Fresh Subscription

This is the minimum investment amount for a new investor in a mutual fund scheme.

Minimum Additional Amount

This is the minimum investment amount for an existing investor in a mutual fund scheme.

Yield to Maturity

The Yield to Maturity or the YTM is the rate of return anticipated on a bond if held until maturity. YTM is expressed as an annual rate. The YTM factors in the bond's current market price, par value, coupon interest rate and time to maturity.

SIP

SIP or Systematic Investment Plan works on the principle of making periodic investments of a fixed sum. It works similar to a Recurring Bank Deposit. For instance, an investor may opt for an SIP that invests ₹ 500 every 15th of the month in an equity fund for a period of three years.

NAV

The NAV or the net asset value is the total asset value per unit of the mutual fund after deducting all related and permissible expenses. The NAV is calculated at the end of every business day. It is the value at which the investor enters or exits the mutual fund.

Benchmark

A group of securities, usually a market index, whose performance is used as a standard or benchmark to measure investment performance of mutual funds, among other investments. Some typical benchmarks include the Nifty, Sensex, BSE200, BSE500, 10-Year Gsec.

Entry Load

A mutual fund may have a sales charge or load at the time of entry and/or exit to compensate the distributor/agent. Entry load is charged at the time an investor purchases the units of a mutual fund. The entry load is added to the prevailing NAV at the time of investment.

For instance, if the NAV is ₹ 100 and the entry load is 1%, the investor will enter the fund at ₹ 101.

Exit Load

Exit load is charged at the time an investor redeems the units of a mutual fund. The exit load is reduced from the prevailing NAV at the time of redemption. The investor will receive redemption proceeds at net value of NAV less Exit Load.

For instance, if the NAV is ₹ 100 and the exit load is 1%, the investor will receive ₹ 99.

Modified Duration

Modified duration is the price sensitivity and the percentage change in price for a unit change in yield.

Macaulay Duration

The Macaulay duration is the weighted average term to maturity of the cash flows from a bond. The weight of each cash flow is determined by dividing the present value of the cash flow by the price.

Standard Deviation

Standard deviation is a statistical measure of the range of an investment's performance. When a mutual fund has a high standard deviation, it means its range of performance is wide, implying greater volatility.

Sharpe Ratio

The Sharpe Ratio, named after its founder, the Nobel Laureate William Sharpe, is a measure of risk-adjusted returns. It is calculated using standard deviation and excess return to determine reward per unit of risk.

Beta

Beta is a measure of an investment's volatility vis-à-vis the market. Beta of less than 1 means that the security will be less volatile than the market. A beta of greater than 1 implies that the security's price will be more volatile than the market.

AUM

AUM or Assets Under Management refers to the recent / updated cumulative market value of investments managed by a mutual fund or any investment firm.

Holdings

The holdings or the portfolio is a mutual fund's latest or updated reported statement of investments/securities. These are usually displayed in terms of percentage to net assets or the rupee value or both. The objective is to give investors an idea of where their money is being invested by the fund manager.

Nature of Scheme

The investment objective and underlying investments determine the nature of the mutual fund scheme. For instance, a mutual fund that aims at generating capital appreciation by investing in stock markets is an equity fund or growth fund. Likewise, a mutual fund that aims at capital preservation by investing in debt markets is a debt fund or income fund. Each of these categories may have sub-categories.

Rating Profile

Mutual funds invest in securities after evaluating their creditworthiness as disclosed by the ratings. A depiction of the mutual fund in various investments based on their ratings becomes the rating profile of the fund. Typically, this is a feature of debt funds.
